PASSION FOR TEACHING:

“ *I here by, Vivek sir wanna to let all my dear students that how i persued for teaching as my future .*

My dear students teaching is not made for having a thousands of cashes in your pocket , its truly made for building the glorius future, basic and unbreakable concepts about the subjects and testing your knowledge for the development of society .

My method of teaching do not includes a lot of thoery works but instead its a program based on various day to day examples , concept application and creating your thought process-visualization about how mathematics do really works . ”
